

TO WHOM IT MY CONCERN

RE: - BYRON BAY ENGERY EFFICIENT DESIGN SERVICES.

I have been associated with Dave Lawrence through his Design Services Business since 2007.

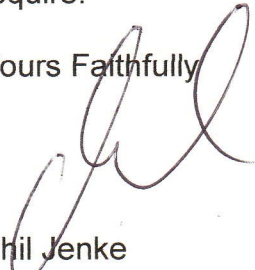

We engaged Byron Bay Energy Efficient Design Services for the up scaling of our Tourist Park, Aurora Shady Glen Tourist Park, which is situated in Darwin. Dave provided initial design works to the proposed cabin layout, landscaping and general site survey work.

Dave has demonstrated his experience in all forms of design services, in particular with the preparation of detailed drawings and documentation related to the particular projects.

I have found Dave to be enthusiastic, thorough and very co-operative. His working relationship and co-ordination with relevant suppliers, relevant Government Departments and City Councils was excellent.

On the basis of my 5 year association with Dave, I have no hesitation in recommending him for any private or business design works that they may require.

Yours Faithfully
